

Healthy Eating Policy

Mission statement.

1. Maree National School, through these guidelines, aims to help all those involved in our school community, children, staff and parents, to develop positive attitudes to eating and healthy living. We wish to promote 'the personal development and well being of the child and to provide a foundation for healthy living in all its aspects'. (SPHE Guidelines)
2. To help achieve this, our guidelines will reflect good eating habits. These should be established at an early age. As children have a right to learn about different foods so that they may make informed choices throughout their life.
3. The purpose of making healthy food choices enables children to attain their optimum growth, development and health potential.
4. Recent research (Department of Health and Children) has highlighted disturbing trends, including an increase in childhood obesity and diabetes so therefore our policy and guidelines are both timely and critical for the health and development of children.
5. Through a whole school approach, and within the context of SPHE (Social, Personal and Health Education) the children, parents and staff will learn about nutrition, healthy eating and healthy living.
6. Our healthy eating guidelines hope to enable the children to develop an understanding of healthy living, and an ability to implement healthy behaviour and willingness to participate in activities that promote and sustain health. This includes physical activity.
7. We feel that, in developing the policy, parents, children, teachers, school staff and the BOM should be involved in a collaborative way.
8. All classes will receive a least 1 lesson on healthy eating each term.
9. School staff will provide supportive attitudes to encourage healthy eating.
10. Parents will be supported in their role as Primary Educators by providing them with up to date information on healthy eating habits from the Dept. of Health.
